A man buys a Chinese meal that costs \$2.80. He pays for the food with a \$10 bill. How much change will he get?

The change from \$5.00 is \$2.80. How much was spent?

Three pineapples cost a total of \$5.00. A lady pays for the pineapples with a \$5 bill and a \$1 bill. How much change will she get?

After spending \$3.20 on food, a man is given \$6.80 in change. How much had he given to the storekeeper?

Apples cost 60¢ a pound. How much will 4 pounds cost?

A box of chocolates costs \$6.25. It is paid for with a \$5 bill and two \$1 bills. How much extra has been paid?

How much change will you get if you buy food for \$5.35 and pay for it with a \$10 bill?

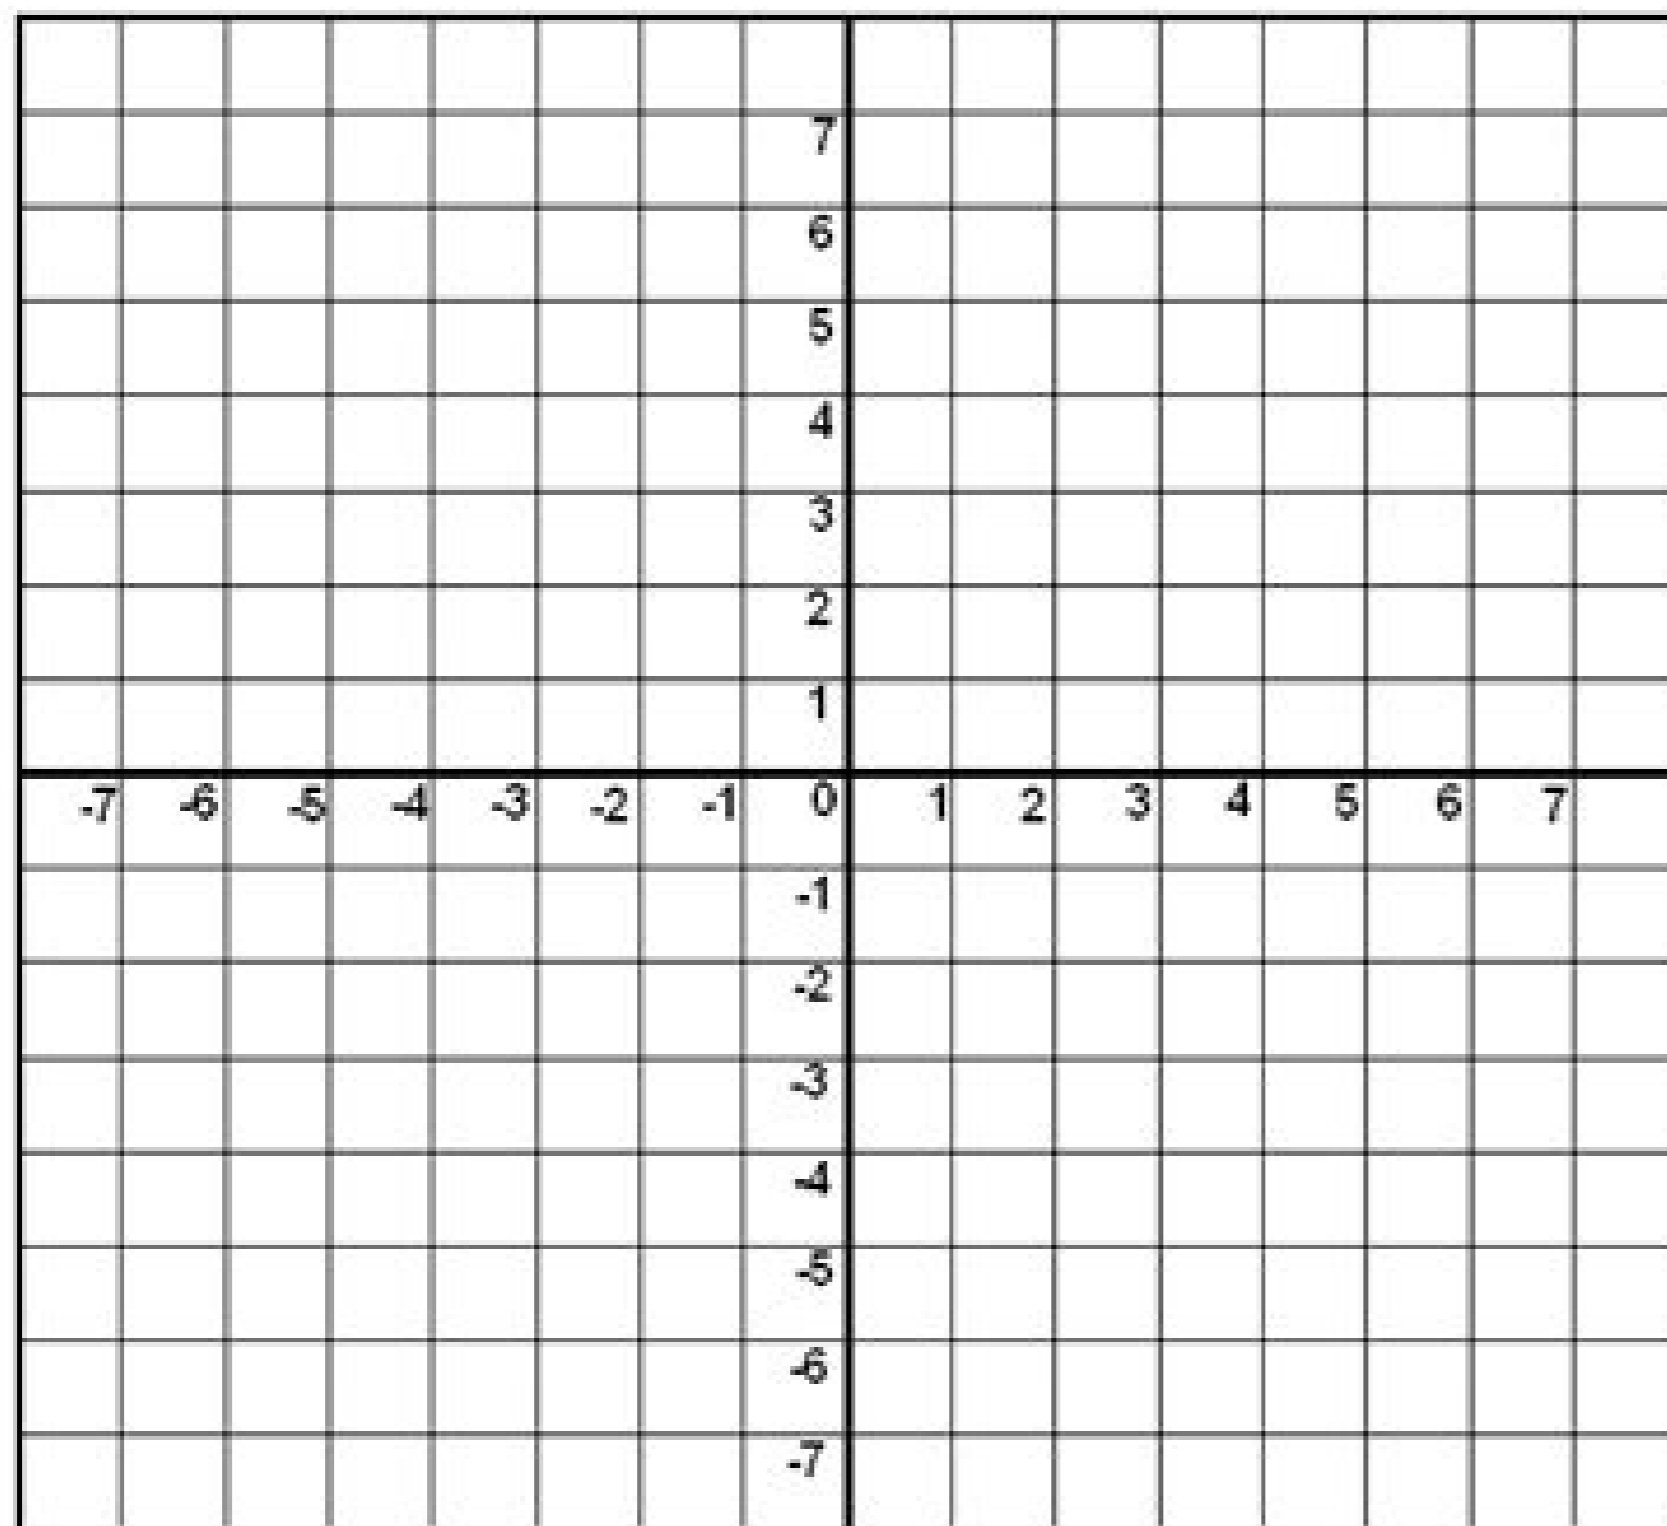

Student Name: \_\_\_\_\_

Score: \_\_\_\_\_

## Identify the Quadrants

Plot the following points and identify the quadrant in which they lie:

- A (2,-6)
- B (-7, -3)
- C (-5, 5)
- D (-4, -1)
- E (1,-1)
- G (6, 4)

Name \_\_\_\_\_

### Word Problems

1. When the birthday cake was about to be served, you were told you could have 0.6, 60%, 3/5, 6%. Which 3 will give you the same size portion?
2. 4/7 of the birthday cake was eaten on your birthday. The next day your dad ate 1/2 of what was left. You get to finish the cake, how much is left?
3. The grocery store parking lot that will hold 1000 vehicles. 2/5 of the parking spaces are for cars. When you went to buy groceries, there were 200 cars and some trucks in the parking lot. The parking lot was 3/4 full. How many trucks were in it?
4. Justin is making snowballs to build a fort on the winter break. Justin can build 15 snowballs in an hour but 2 snowballs melt every 15 minutes. How long will it take him to build 210 snowballs?
5. The recipe for mint chocolate ice cream requires 2 1/4 cups of cream for 5 people. You need ice cream for 8 people. How much cream will you need?

#### Grade 7 Word Problems Set 1

- 1) Kara was interested in going to the mall to buy some new clothes. Once she got there she purchased two shirts that cost \$13.42 total. If she started out with \$40.00, what percentage of her money did she spend?
- 2) There are 90 people voting in a school election. There were two parties. 35% of the students voted for the red party. How many students voted for the blue party? Express your answer as a numeral, not as a percentage.
- 3) Two of these numbers are the same value, which ones are they? 40%, .44, 1/4, .04, 4/10?
- 4) Kara wanted to earn a 90% for her overall history grade. During the course she has to take 5 tests. So far, she has only taken 4 tests. Her exam scores for the tests are as follows; 85, 83, 99, 95. If Kara wants to ensure she will receive a 90%, what is the minimum score on the 5<sup>th</sup> test that she can receive?
- 5) Ellen was interested in selling her father's tools for their garage sale. Her father said she could sell 43% of the total tools. If Ellen ended up selling 12 tools, how many tools did Ellen's father begin with?

Addition Word Problems Worksheets Using 1 Digit with 3 Addends These additional word problems worksheets will produce problems of 1 digit with three addends, with ten issues per worksheet. These word problems worksheets are appropriate for the third degree, fourth degree and fifth degree. Addition Word Problems Worksheets Using 2 Digits with 3 Addends These additional word problems worksheets will produce 2-digit issues with three addends, with ten issues per worksheet. These word problems worksheets are appropriate for the third degree, fourth degree and fifth degree. Addition Word Problems Worksheets 2 missing digits Addends These word problems added worksheet will produce problems of 2 digits with missing addends, with ten issues per worksheet. You can select between grouping and type of non-grouping problems. These word problems worksheets are appropriate for the third degree, fourth degree and fifth degree. Subtraction Word Problems Worksheets Using 1 Digit These worksheets of subtraction word problems will produce problems of 1 digit, with ten problems per worksheet. These word problems worksheets are appropriate for the third degree, fourth degree and fifth degree. Subtraction Word Problems Worksheets Using 2 Digits These worksheets of word subtraction problems will produce problems of 2 digits, with ten problems per worksheet. These word problems worksheets are appropriate for the third degree, fourth degree and fifth degree. Addition and Subtraction Word Problems Worksheets using 1 Digit These worksheets of word-of-adhesion and subtraction issues will produce problems of 1 digit, with ten problems forof work. These working sheets of word problems are appropriate for the third degree, the fourth degree and the fifth fifth Worksheets for words of addition and subtraction problems without grouping these worksheets will produce 2-digit issues without grouping and ten problems per worksheet. These worksheets of these problems are appropriate for the third grade, fourth grade and fifth grade. Worksheets for adding and subtraction word problems worksheets for added Word and subtraction issues will produce 3-digit issues, with ten issues per worksheet. These worksheets of these problems are appropriate for the third grade, fourth grade and fifth grade. Adding and subtracting multi-phase problems These Works worksheets Added to multiple stages and subtracts will produce 10 issues per worksheet. These worksheets of these problems are appropriate for the third grade, fourth grade and fifth grade. Multiplier Worksheets Word Problems Using 1 digit These worksheets of multiplication issues will produce problems of 1 digit, with ten issues per worksheet. These worksheets of these problems are appropriate for the third grade, fourth grade and fifth grade. Word problems multiplication worksheets using dozens of worksheets these word multiplication issues will cause problems using dozens, with ten issues per worksheet. These worksheets of these problems are appropriate for the third grade, fourth grade and fifth grade. Multiplier Worksheets Word Problems Using 2 digits These Word Problems multiplication worksheets will produce 2-digit problems, with ten issues per worksheet. These worksheets of these oroval id ilgoF i onnarrudorp enoisivid id oroval id ilgoF itseuQ .erisivid id enzodd onazzilit ehc enoisivid id alorap id imelborp rep oroval id ilgoF .eratnemele atniug al e eratnemele atrauq al .eratnemele azret al rep itairporppa onos imelborp itseuq id oroval id ilgoF itseuQ .oroval id oilgof rep imelborp iceid noc .artfic 1 id erosivid id imelborp onnareudorp enoisivid id alorap id imelborp itseuq a oroval id ilgoF itseuq erosivid ni artfic 1 onazzilit ehc enoisivid id alorap id imelborp rep oroval id ilgoF .eratnemele atniug al e eratnemele atrauq al .eratnemele azret al rep itairporppa onos using dozens in the divisor, with ten problems worksheets are appropriate for 3rd Grade, 4th Grade, and 5th Grade. Division Word Problems Worksheets Using Multiple Digits in Divisor These division word problems worksheets will produce multiple digits in the divisor for the problems, with ten problems per worksheet. These word problems worksheets are appropriate for 3rd Grade, 4th Grade, and 5th Grade. Dividing with Fractions Worksheets These division Word Problems Worksheets will produce problems that focus on division with fractions. You have the option to select the range of denominators, as well as the types of fractions displayed. These word problems worksheets are appropriate for 4th Grade, 5th Grade, and 6th Grade. Multiplication and Division Problems Using 1 Digit These multiplication and division word problems worksheets will produce 1 digit problems, with ten problems per worksheet. These word problems worksheets are appropriate for 3rd Grade, 4th Grade, and 5th Grade. Mixed Operations Word Problems Using 1 or 2 Digits These mixed operations word problems worksheets will produce addition, multiplication, subtraction and division problems with 1 or 2 digit numbers. These word problems worksheets will produce ten problems per worksheet. These word problems worksheets are appropriate for 3rd Grade, 4th Grade, and 5th Grade. One Step Equation Word Problems These equations worksheets will produce one step word problems. These worksheets will produce ten problems per worksheet. These word problems worksheets are a good resource for students in the 5th Grade through the 8th Grade. Two Step Equation Word Problems These equations worksheets will produce two step word problems. These worksheets will produce ten problems per worksheet. These word problems worksheets are a good resource for students in the 5th Grade through the 8th Grade. Multi-Step All Operations Word Problems These Problem worksheets will produce word problems involving all basic operations. You can choose the format of the answers. These word problems worksheets will produce ten issues per worksheet. These word problems worksheets are a good resource for fifth grade students through the eighth grade. Add two Word Problem Fractions These fraction word problems worksheets will cause problems with adding two fractions. These word problems worksheets will produce ten issues per worksheet. These word problems worksheets are a good resource for fifth grade students through the eighth grade. Adding three Word Problem Fractions These fraction word problems worksheets will cause problems with adding three fractions. Extensive decimal word problems are presented in these sets of worksheets, which require the learner to perform addition, subtraction, multiplication, and division operations. This batch of printable decimal word problem worksheets is curated for students of grade 3 through grade 7. Free worksheets are included. Free Math Worksheets for Grade 5. This is a comprehensive collection of free printable math worksheets for grade 5, organized by topics such as addition, subtraction, algebraic thinking, place value, multiplication, division, prime factorization, decimals, fractions, measurement, coordinate grid, and geometry. This assortment of printable exponents worksheets designed for grade 6, grade 7, grade 8, and high school is both meticulous and prolific. As well as cracking the distincty advantageous aspects of exponents, a unique math shorthand used to denote repeated multiplication, students gain an in-depth knowledge of parts of an exponential notation, converting an expression with ... What you need to know about our Grade 6 Math Worksheets PDF. As far as these math printable worksheets for grade 6 are concerned, we can boast of fun designs, well-structured exercises and interesting real life problems. These strategies will greatly inspire your 6 graders to have an overwhelming desire to solve more math. Password requirements: 6 to 30 characters long; ASCII characters only (characters found on a standard US keyboard); must contain at least 4 different symbols;
